

Fusion Pharmaceuticals To Present At The Morgan Stanley 20th Annual Global Healthcare Conference

HAMILTON, ON and BOSTON, Sept. 7, 2022 /PRNewswire/ -- Fusion Pharmaceuticals Inc. (Nasdaq: FUSN), a clinical-stage oncology company focused on developing next-generation radiopharmaceuticals as precision medicines, today announced that the Company will present in a fireside chat at the Morgan Stanley 20th Annual Global Healthcare Conference on Wednesday, September 14, 2022 at 12:55 p.m. ET. Presenting on behalf of Fusion will be Chief Financial Officer John Crowley, and Chief Technology Officer Eric Burak, Ph.D.

A live webcast of the event will be available on the "Events and Presentations" page in the "Investors & Media" section of the Company's website at <https://ir.fusionpharma.com/events-webcasts>. A replay of the webcast will be archived on the Company's website for 60 days following the presentation.

About Fusion

Fusion Pharmaceuticals is a clinical-stage oncology company focused on developing next-generation radiopharmaceuticals as precision medicines. Fusion connects alpha particle emitting isotopes to various targeting molecules in order to selectively deliver the alpha emitting payloads to tumors. Fusion's first program, FPI-1434 targeting insulin-like growth factor 1 receptor, is currently in a Phase 1 clinical trial. The pipeline includes FPI-1966, targeting the fibroblast growth factor receptor 3 (FGFR3), currently in a Phase 1 study; and FPI-2059, a small molecule targeting neurotensin receptor 1 (NTSR1), which has received FDA investigational new drug (IND) clearance and will begin a Phase 1 study. In addition to a robust proprietary pipeline, Fusion has a collaboration with AstraZeneca to jointly develop novel targeted alpha therapies (TATs) and combination programs between Fusion's TATs and AstraZeneca's DNA Damage Repair Inhibitors (DDRIs) and immuno-oncology agents. Fusion has also entered into a collaboration with Merck to evaluate FPI-1434 in combination with Merck's KEYTRUDA® (pembrolizumab) in patients with solid tumors expressing IGF-1R. To support Fusion's growing pipeline of TATs, the company has signed strategic actinium supply agreements with TRIUMF and Niowave, Inc.
